AquaDryer

1 DRYER - UNIQUE HORSE WELLNESS

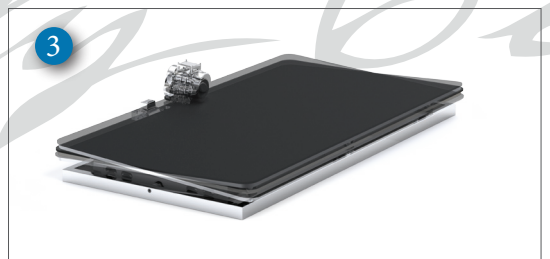

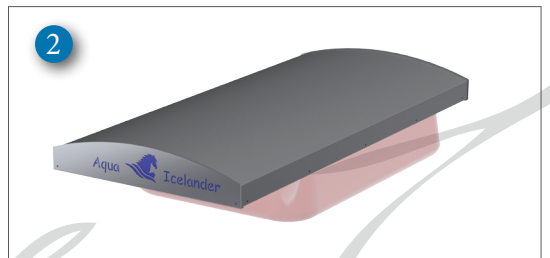

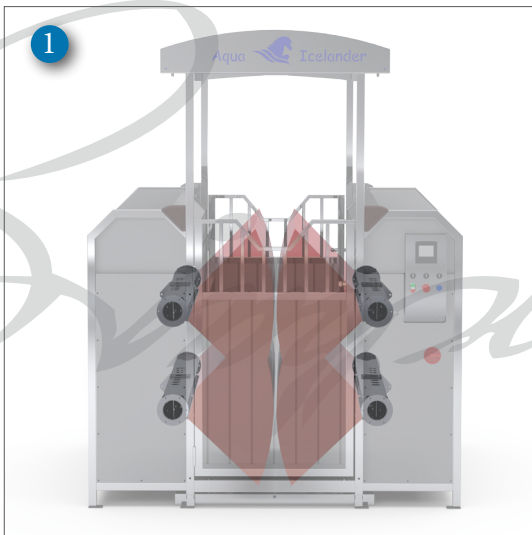

The equine dryer is equipped with two blowers, one on each side. Warm air is guided to both sides of the horse with **150 special air nozzles**. The gentle breeze is constantly moving up and down during the process therefore the legs, hooves, sides and chest gets **evenly air dried**.

2 INFRARED LAMPS

Over the horse back and neck are a **Unique Ceramic lamps** that generates IR heat to the whole back and lower neck of the horse. Same ceramic IR lamps are used in thousands of Infrared sauna cabins worldwide.

3 AQUA WAVE

The vibrafloor technique is well known on the market. We offer vibrafloor horizontal and tilting option **UME - Unique Muscle Equalizer**. This system equalize the weight of the horse's legs by rolling the plate to both sides twice per minute. This technique guaranties that the whole body of the horse absorbs the **vibrating treatment**.
